Subject: Re: YIRCOF '09 Yeditepe International Research Conference on Foresight Assessment

Dear Senem,

Hope the flood is withdrawing!

Here are my few sentences about the conference:

A successful conference in a beautiful setting. A wide spectrum of approaches and backgrounds represented at the meeting expanded my perspectives on future studies and foresight. Competent and helpful staff was another advantage. Hope to be there for the next foresight conference.

With thanks for your work and wonderful hospitality in Istanbul,

Lukasz
